

A WHIRLWIND OF EMOTIONS

This is a sensuous event focusing on the most precious human emotions and their expression via music, dance and other forms of art.

DETAILED DESCRIPTION:

INVITATION

A few weeks in advance the guests receive an animated email invitation that includes the picture of a beating heart and a classical melody. They are kindly invited to attend an evening the focal point of which is feelings and emotions. The dress code is evening attire in soft, sensuous colors.

WELCOMING OF THE GUESTS

Upon arrival, the guests enter the venue decorated in white. Ice Girls (event assistants) offer them blue cocktails and one-bites and show them to the tables. As for the music (or rather a background noise), the guests can hear the sounds of a snowstorm. On the stage decorated in white and lit with a single blue spotlight, a flutist is playing. On the screen above the stage there is a video projection – a compilation of images showing snow, ice, icebergs, etc. From time to time, these images are interspersed with pictures of a cardiogram.

OPENING OF THE EVENT

As soon as the guests are at the tables, the Hostess of the event enters the stage. She is wearing a long white fur cloak. Upon her appearance, the sounds of a snowstorm get less intense, the light from projectors becomes warmer and the images of ice and snow are replaced with the ones picturing melting and thawing. Everyone's hearts are about to melt in the whirlwind of emotions.

Passion

Passion is embodied by dancers who perform a modern dance based on the classical piece – Maurice Ravel's "Bolero". The stage gets even lighter; the Hostess takes off the cloak and the images on the screen turn into nice and warm.

Pain

An opera singer performs a habanera – the famous aria from the opera "Carmen" by Georges Bizet. It's passionate, and at the same time full of pain and apprehension.

Longing

This feeling is best expressed in a tango which has absorbed the sadness of the lost Indian civilization and the hopes of those who came to that land in search of happiness. Thus the guests enjoy a performance by professional dancers.

THE GRAND FINALE

Mystery

Illusionists always have this air of mystery around them as only they know the secrets of their tricks. The evening continues with a performance by well-known illusionists who do tricks among and with the guests.

Joy

All of a sudden, dancers appear from different places in the venue and take the stage. They are cabaret dancers or Latin dancers, so the performance creates the atmosphere of a wild and joyful fiesta or carnival.

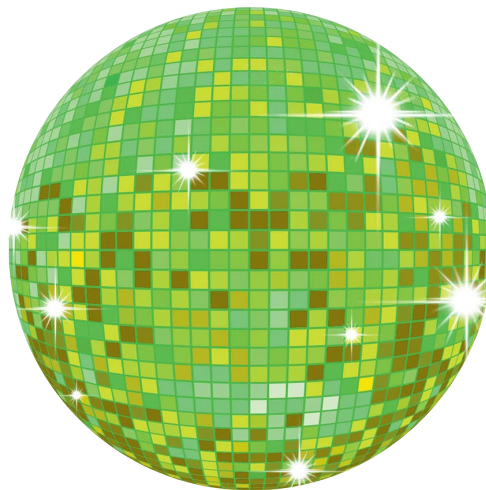

Love

Love is a feeling that takes two, so it's time for duets of an opera singer and a pop/rock singer who sing well-known love songs/arias. It's an exciting combination of two styles and a chance to enjoy the best love songs once again.

In between the performances, the guests are served dishes that are on the menu prepared in advance and related in one way or another to the concept of the event.

The atmosphere is much warmer and the feelings much stronger. The Hostess of the event announces that it's time for something really spectacular. The sound of the beating heart gets more intense, the stage curtains go up, and the guests see an impressive firework show followed by the popping of champagne bottles.

Afterwards, the guests enjoy the food, the drink and each other's company with a background music playing in the venue.

We wish you a stunning party!
